

# VILLUM RESEARCH STATION WORKSHOP — RESULTS FROM 2015 SEASON

APRIL 7-8, 2016

**LOCATION:** Aarhus University, Building 1431, Room 021, Nordre Ringgade 1, 8000 Aarhus C, Denmark

**TIME:** April 7, 2016 08.30-17.00 and April 8, 2016 08.30-14.00

**REGISTRATION DEADLINE:** Marts 21, 2016 at <https://auws.au.dk/VRS-workshop16>  
It will be possible to participate via video link; details will be sent out later.

The workshop will focus on presentation and discussion of results from the research campaigns at Villum Research Station during 2015. We are all busy looking into the results from the past season, but we are not looking at how our data can be used across disciplines and this is the topic of this workshop.

The workshop is divided into different themes looking at the interactions between matrixes, see below.

- Atmospheric gas – particle interactions
- Air – sea interactions
- Sea – ice interactions
- Abiotic – biotic interactions
- Sediment – water interactions
- Modeling

The workshop is held in collaboration with CRAICC and ASP. There will be some central invited plenum speakers and then there will be the sessions above.
